 Tall: cuffed up to 34"; uncuffed up to 36".

To determine your inseam, measure similar style pants that fit you well
 from the crotch seam to bottom of pants.

Here's how to get the correct size.

Height: Stand in stocking feet, with feet together, back to a wall. Measure from crown of head to the floor.

Neck: Measure around base of the neck (the lowest point of the neck). Number of inches equals the neck size you should order.

Waist: Measure around waist, over body (not over shirt or slacks) at the height you normally wear your slacks. Number of inches = size.

Inseam: Measure similar style pants, that fit you well, from the crotch seam to bottom of pants. Number of inches (to the nearest 1/2") = inseam length. We inseam free! Add 1/2" for 100% cotton pants to allow for shrinkage.

Bust/Chest: With arms relaxed down at sides, measure fullest part of bust/chest, keeping tape parallel to the floor.

Waist: Measure around waist over body (not over shirt or pants).

Hips: Stand with heels together. Keep tape straight and parallel to the floor, measure around fullest part.

Arm: Bend arm to 90°, place hand on hip. Start at center back of neck, measure across the shoulder to the elbow and down to the wrist.

Number of inches equals your sleeve length.
